

PIMA To Serve on High Performance Building Council

PIMA has been invited to serve as a member of the High Performance Building Council. Authorized by Section 914 of the Energy Policy Act of 2005, the Council is to recommend consensus based national standards for high performance buildings. Working as part of the National Institute of Building Sciences, the Council will attempt to “bridge the divide” between design/construction and operations.

High Performance Building Council: Current Participants

Air-Conditioning and Refrigeration Institute	Plumbing Manufacturers Institute
American Architectural Manufacturers Association	Portland Cement Association
American Chemistry Council/Plastics Division	Southern California Edison
American Forest and Paper Association	U.S. Department of Defense
American Institute of Architects	U.S. Department of Energy
American Iron and Steel Institute	U.S. Environmental Protection Agency
American National Standards Institute	U.S. General Services Administration
American Society of Civil Engineers	U.S. Green Building Council
American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.	
American Society of Mechanical Engineers	
Associated General Contractors of America	
ASTM International	
Building Enclosure Technology and Environment Council	
Building Owners and Managers Association International	
Construction Specifications Institute	
GAMA (Association of Appliance and Equipment Manufacturers)	
Green Building Initiative	
Illuminating Engineering Society of North America	
Institute of Electrical and Electronics Engineers, Inc.	
International Code Council	
National Electrical Manufacturers Association	
National Fenestration Rating Council	
National Fire Protection Association	
National Institute of Standards and Technology
